Projects

Bank of Baroda

I have a strong background in web development, with a focus on frontend work where I integrated APIs using Angular, leveraging both TypeScript and JavaScript to create dynamic and responsive user interfaces. In addition to my frontend expertise, I've also contributed to the backend by working on NodeJs facilitating seamless integration with RESTful services.

Stoxkarts

I possess extensive expertise in frontend development, specializing in Angular, where I've seamlessly integrated APIs using both TypeScript and JavaScript. My proficiency in this area ensures the creation of dynamic and responsive user interfaces that interact seamlessly with external data sources. In addition, I've contributed to the backend by working NodeJs allowing for the integration of RESTful services into the application's architecture

Single Product E-Commerce

This website allows you to buy a single product at a time.

The functionality implemented is mainly Online Payment Gateway (Razorpay Integration).

Responsibilities

Implemented responsive UI designs using HTML5, CSS3, and Bootstrap. Developed dynamic web applications using Angular 8+ and TypeScript. Worked closely with back-end developers to integrate RESTful APIs and NodeJS.
